

Major Initiatives

Reducing Reports

Duplicate and triplicate spending is a terrible side effect of a bureaucracy. The Federal, Provincial, and Municipal Governments all have people doing studies. Take for example the price of food do we really need to pay someone at the municipal, provincial and federal level to tell us the prices of milk and eggs are up? Of course not. We need an independent Mayor to call these redundancies out!

Small Modular Reactor (SMR)

Electricity used to be locally produced. A single SMR could easily power Brantford and Brant County. Electricity rates should be falling not rising! Let's step into the future instead of overpaying for the past.

Healthy Living

People are worried about screen time for children and adults are just as bad --- where do you think the kids learned it from!? I will be promoting and participating in community skates, line dances, softball, and flag football tournaments. They say it takes a village to raise the child --- well village put down your phones and join our party!

Modernizing Maintenance

Many golf courses have begun the process of automating turf management. Pursuing this technology will free our workers to fill more pot holes, trim trees, and do an even better job of managing our facilities.

Major Initiatives

Property Tax Credits

Brant County spends \$7 Million+ annually on interest payments! If we were to expand the use of Property Tax credits as part of the pay package to County staff and Contractors we could pay off our interest bearing debts quickly! Municipalities already give property tax breaks to large employers, time to use it for the little guy!

Basic Income Pilot Pressure

The worst stress people can endure is financial. Our entire history has been invention to free us from labour. Electrification, the Internal Combustion Engine, and AI have made all of us expect fresh raspberries in February --- Even the Queen of England 100 years ago would never had this! Instead of being able to celebrate such an accomplishment we are rewarded with more and more homeless and hopeless people. We must put an end to this poverty amidst plenty and restore economic democracy!

Homestead Haven

The community food program donation tax credit will be amplified in our jurisdiction. We have many skilled gardeners and horticulturalists to boost our local food production. We must not wait for a large scale employer in the middle of an economic crisis. It's time to get proactive and resurrect the victory gardens!

**WE ARE IN DESPERATE NEED OF A
JUBILEE
WE CAN ACHIEVE THIS
TOGETHER!**

David Swanson:

David Swanson has managed multimillion dollar winter maintenance programs in York Region for James Dick and Rafat.

David Swanson has professional experience in Waste Management, Road Maintenance, and Financial Services.

David Swanson participates in all community events with an open heart, an open mind, and respect for all.

David Swanson quickly earns the respect and loyalty of the team even as an outsider at a breathtaking pace. Veteran employees and managers are always amazed at how fast David Swanson, even as an outsider, earns the respect and loyalty of his fellow man. Respect and loyalty are not transactional qualities, they are earned. Which is why some members of some factions fear HIM! They can not earn that devotion and everyone knows it!

David Swanson's talent stack cannot be duplicated in flowery AI driven social media posts or memorized like answers to a test. The quality of grace under fire is not taught at this age nor learned on the job.

**Do you want to heal the political divide?
Do you want to pay off your debts?
Do you want to see a golden age?**

YES!

LFG

GREEN PARTY

Recycling must be washed or it will not be picked up at the curb. This is easy to do and of limited obligation on your part. With a bit of effort we can truly recycle.

Littering laws will be strictly enforced. We are going to have the prettiest and cleanest County in Canada.

LIBERAL PARTY

As a former card carrying liberal David Swanson agrees with the spirit of the social justice and the social safety net initiatives we have built in this country. We don't want to see anyone go without in such a great nation as ours which is why David Swanson will apply constant pressure on the Province and the Fed's to restore hope and opportunity to our youth via Basic Income.

NDP PARTY

David Swanson has always advocated for paying the guys. He was a founding member of a union in 2018 because that was the right thing to do. Make no mistake the tradespeople keep the engine of civilization running not the lawyers and politicians. The people holding the tools and operating the equipment have no better ally than me.

CONSERVATIVE PARTY

Our high trust society and peak quality of life is receding. Our prior generations of tax payers have created a tremendous National Treasure and inheritance for Canadians! Yet we are watching it be plundered and given away. Producing dismal outcomes for our children. We've got a County and a Country to save!

TALENT STACK
